Subject: Internship Testimonial – Ms. Marichetty Gnanisha

To Whom It May Concern,

I am pleased to recommend Gnanisha (Nisha), who completed her internship with the Business Intelligence team at Virtuos Holdings Pte Ltd.

Nisha completed a two-month internship with Business Intelligence (BI) team in Virtuos, supporting various initiatives including dashboard development, report maintenance, Power BI modelling, DAX measure creation, and exploratory work in Copilot Studio. During her internship, she demonstrated strong learning agility and was able to pick up new concepts and technical skills efficiently.

One of Nisha's key strengths was her readiness to take on unfamiliar tasks and challenges with a proactive mindset. She also demonstrated a stronger eye for creating visually appealing dashboards and reports, showing attention to layout and presentation. Nisha was able to execute assigned tasks well once requirements were communicated. As she continues to gain experience, developing stronger questioning techniques to better uncover user requirements and business needs will further improve her ability to deliver more user-centric solutions. Taking the initiative to propose dashboard enhancements or recommend additional metrics and insights beyond the requested scope would also strengthen her overall analytical contribution.

I am confident that Nisha possesses the potential to excel in her future academic and professional pursuits. I would gladly recommend her for any opportunity she chooses to pursue.

Please feel free to contact me should you require any further information.

Sincerely,

A handwritten signature in cursive script, appearing to read 'mychong'.
