Subject: Internship Testimonial – Ms. Marichetty Gnanisha

To Whom It May Concern,

As Gnanisha's supervisor during her internship with our Security team, I was impressed by her eagerness to learn about IT security and her ability to quickly adapt to new tools, processes, and working environments. From the outset, Gnanisha demonstrated a strong commitment to understanding the purpose and context of her assignments, approaching tasks with diligence and a high level of attention to detail.

Throughout her internship, Gnanisha developed a good understanding of our internal IT infrastructure and the important role the Security team plays in protecting the organization's assets and operations. She was involved in key security activities such as incident triage, user awareness initiatives, and asset management. These experiences not only supported the team's operations but also enabled her to gain valuable hands-on exposure to practical IT security work.

Beyond her technical capabilities, Gnanisha demonstrated good communication and collaboration skills. She frequently worked with stakeholders across different departments and geographical locations to support the timely execution of security initiatives. In addition, she showed maturity and initiative by proactively seeking guidance when faced with challenges, helping to ensure smooth progress and effective outcomes.

Overall, Gnanisha was a valued member of the team whose contributions had a positive impact during her internship. I am confident that she possesses the dedication and potential to continue succeeding and growing in the field of IT security.

Please feel free to contact me should you require any further information.

Sincerely,
Nolan Gloux
